

REMARKS

Examiner Patel is thanked for the thorough examination of the subject Patent Application. The Claims have been carefully reviewed and amended, and are considered to be in condition for allowance.

5 Reconsideration of the rejection under 35 USC §112, second paragraph, of Claims 1-2, 5, 10, 15, 24-25, 28, 33, 38, 49-50, 53, 58, 63, 72-73, 76, 81, 86, 95, 96, 99, 104, 109, 118-119, 122, 127 and 132 as being indefinite for failing to particularly point out and distinctly claim the subject matter which the applicant regards as the invention is requested in light of the following arguments. The claims have been amended to correctly provide sufficient
10 antecedent basis for limitations.

Reconsideration of the objection to Claims 1, 49 and 95 because of informalities is requested. The Claims 1, 49 and 95 have been amended to incorporate the corrections of the informalities cited by the examiner.

15 Reconsideration of the objection to the specification because the Abstract contains more than 150 words is requested. The Abstract has been amended to limit the Abstract to 150 as requested by the examiner.

20 Reconsideration of the objection to the specification because the Related Patent Application section of the specification does not have all serial number and filing dates. The specification has been amended to provide the serial number and filing date of the Related Patent Applications.

The applicant acknowledges the Examiner's statement that Claims 1-142 would be allowable if amended to overcome the rejections under 35 USC §112, second paragraph.

The applicant believes that the amended claims overcome these rejections and the objections cited by the Examiner and respectfully requests that a timely Notice of

5 Allowance for all claims be issued in this case.

It is requested that should Examiner Patel not find that the Claims are now allowable, that the undersigned be called at (845) 452-5863 to overcome any problems preventing allowance.

10 Respectfully Submitted,
George O. Saile & Associates
